# About Us

The background of the slide features a dark, textured surface. In the upper right corner, there is a glowing Bitcoin coin with the word "BITCOIN" inscribed on it. To the right of the coin, a portion of a world map is visible, showing various countries and their names in a small font.

- The EasyTron Smart Contracts are Public and Can Be Viewed By Anyone Directly on the Blockchain.
- Using Tron (TRX) Blockchain Technology We Have Created a Business with 100% Transparency by Using Smart Contract Technology.
- A Smart Wallet is a computer-programmed code containing a stringent set of criteria that must be satisfied before a transaction will be approved.

# What is Cryptocurrency?

- A medium Of exchange that use cryptography to secure transaction and control the creation of new units.
- Cryptography is the practice of transforming data or information into an unreadable format in order to increase security so that only those with a proper secret key can read the unencrypted .
